This matter is before the Court on the parties' request to amend the current scheduling order. (ECF No. 45.) The parties have amended the scheduling order twice in the past six months and represented to the Court on the June 8, 2010 conference call that a 90-day extension would be sufficient. Because the parties have put forth no new reason for an additional extension, the parties' request is hereby denied without prejudice.

IT IS SO ORDERED.
